Eagles Autumn 1 curriculum overview

EYFS

PSED	Physical development	Communication and language	Literacy	Maths	Understanding the world	Expressive arts and design
We will be learning routines, understanding our feelings and emotions as well as learning about road safety.	We will be doing lots of gross and fine motor skill practise in a variety of ways. In PE, we will learn some fundamental skills such as jumping, hopping, skipping and throwing.	We will be learning poems, songs and rhymes including chop chop, If you're happy and you know it plus interacting with friends and adults in provision and role-play.	We will begin learning all our single sounds in phonics. In Drawing Club we will draw and use secret codes about books such as: The Colour Monster, Super Duper You and The Tiger Who Came to Tea.	In maths we will be learning about numbers and counting up to 5 and then 10. We will then learn to add and subtract numbers within 5 and 10. We will practise recognising and subitising numbers.	We will be looking at signs of autumn, learning about Harvest, learning about maps and globes and where we are in the local area. We will learn about different animals. We will listen to some stories from the bible.	We will be exploring making through cutting and joining materials. We will explore colour and use to create artwork linked to our learning. We will listen to and move to the music and sing songs with our friends.

English

In English lessons, we will be writing narratives to entertain, recounts to inform and poetry. We will use the book 'Journey', short animations and the traditional tale Littlle Red Riding Hood. In reading, we will develop our comprehension skills by reading and discussing a range of stories and non-fiction texts. Please read daily at home. We will learn spelling rules and spelling of key words. Weekly activities will be sent home.

Maths

In maths we will be starting the term by all looking at place value and develpong our knowledge of number. We will then begin addition and subtraction where we will learn to use mental and formal methods to solve equations.

Science

In KS1, we are looking at humans and other animals. We will talk about our own bodies and the functions of our body parts. We will also look at other types of animals and their diets and habitats.
In KS2, we will be looking at states of matter and the properties of different materials. We will have the opportunity to observe how these can be changed when heated or cooled

Eagles Autumn 1 curriculum overview

Geography

In KS1, we will be learning the continents and oceans using maps and globes. We will learn about where it is colder and hotter.
In KS2, we will learn about trade. We will learn about what the UK imports and exports, Fairtrade, supply chains and how trade has changed over time.

DT

In KS1 our DT will be about designing and making "A Chair for a Bear". We will explore how to make a structure strong as well as what other design features are required.
In KS2 we will be learning about shell structures, designing and making a helmet suitable for a specific user.

RE

In KS1 we will be learning about 'What do Christians believe God is like?' by learning about the Parable of the Lost Son and the story of Jonah and the Big Fish.
In KS2, we will be learning about 'What is it like for someone to follow God?' by learning about Noah and the Ark and the story of Abram and the covenants Christians believe were made by God.

Music

We will be learning the song 'Bringing us together' through warmup games and singing. We will have a focus on playing glockenspiels and/or recorder parts to accompany the song.

Computing

In Ks1 we will be learning all about what a computer is and it different compnents.
In years 4 and 5, we will be learning all about computer networks and how they connect to each other.
Year 6 will learn about computer systems and networks. They will learn about secure codes and passwords while learning about the history of computers before thinking about what computers of the future may be like.

French

In French we will be learning about and extending our knowledge of French greetings through speaking, listening, reading and writing activities.

PE

Tuesday PE
Thursday PE will be focussed on Fundamentals. We will learn about balance and control in jumping and skipping, running at different speeds, changing direction, developing control and technique in jumping, hopping and skipping and applying these skills to games.
If the weather is too wet to go outside, we will either adapt the lesson for inside the classroom or have a yoga lesson.

RSHE

In KS1, we are starting the term by learning about road safety and how to cross the road. We will then begin the unit on 'water spillahes' and think about how we can take responsibility to clean up after ourselves.
In ks2, we are looking at cycle safety and how we can keep ourselves and other road users safe. We will then atart our unit on 'coming home on time'.
