

# Membury Primary Academy

## Weekly Newsletter

Friday 10th October

Issue 6

### This Week

In maths this week, the children have moved into addition and subtraction and applying their place value knowledge to help them with these calculations. In science, Year 3/4 are investigating how different liquids effect our teeth by using eggs. We look forward to seeing what happens. In geography, KS2 evaluated their enquiry and suggested changes to local land use in Membury while KS1 drew a map of the school using symbols and a key. In music, the children are developing their improvisation skills to our song 'Let your spirit fly'. In DT, the children have added detail and decoration to their playground structures. Well done all.
